Despite its forefathers – Helvetica, Akzidenz and the like – the Rational family does not imply modernist neutrality or functionalist lack of personality. In fact, it is a visualization of a well-behaved mind, friend and long term partner that combines the thinking of the hands, with the precision of a machine.

Earth is the third planet from the Sun.

21/25 pt

Earth is the third planet from the Sun and the only astronomical object known to harbor life.

12/15 pt

Earth is the third planet from the Sun and the only astronomical object known to harbor life. While large volumes of water can be found throughout the Solar System, only Earth sustains liquid surface water. About 71% of Earth's surface is made up of the ocean, dwarfing Earth's polar ice, lakes, and rivers. The remaining 29% of Earth's surface is land, consisting of continents

Earth is the third planet from the Sun and the only astronomical object known to harbor life. While large volumes of water can be found throughout the Solar System, only Earth sustains liquid surface water. About 71% of Earth's surface is made up of the ocean, dwarfing Earth's polar ice, lakes, and rivers. The remaining 29% of Earth's surface is land, consisting of continents

J.D. SALINGER THE CATCHER IN THE RYE

FROM WIKIPEDIA
THE *free* ENCYCLOPEDIA

1951

Holden Caulfield, a depressed 17-year-old, lives in a sanitorium in California after the end of World War II. After his discharge within a month, he intends to go live with his brother D.B., an author and war veteran with whom Holden is angry for becoming a Hollywood screenwriter.

Holden recalls the events of a single night during the previous year's Christmas, beginning at Pencey Preparatory Academy, a boarding school in Pennsylvania that Salinger may have based on the Valley Forge Military Academy and College. Holden has just been expelled from Pencey because he had failed all of his classes except English. After forfeiting a fencing match in New York because he accidentally lost his equipment on the subway, he says goodbye to his history teacher, Mr. Spencer, who is a well-meaning but long-winded old man. Spencer offers him advice and simultaneously embarrasses Holden by criticizing his history exam.

Back at his dorm, Holden's dorm neighbor, Robert Ackley, who is unpopular among his peers, disturbs Holden with his impolite questioning and mannerisms. Holden, who feels sorry for Ackley, tolerates his presence. Later, Holden agrees to write an English composition for his roommate, Ward Stradlater, who is leaving for a date. Holden and Stradlater normally hang out well together, and Holden admires Stradlater's physique. He is distressed to learn that Stradlater's date is Jane Gallagher, with whom Holden was infatuated, and whom he feels the need to protect. That night, Holden decides to go to a Cary Grant comedy with Mal Brossard and Ackley. Since Ackley and Mal had already seen the film, they end up just eating food and playing pinball for a while and returning to Pencey. When Stradlater returns hours later, he fails to appreciate the deeply personal composition Holden wrote for him about the baseball glove of Holden's late brother Allie who died from leukemia a few years prior, and
