When I designed the Faktum font I was lost on the shapes of Mid-century modern furniture. It was the juxtaposition of round and squarish elements that fascinated me. Faktum is exactly this – a child of contradictions, balancing the organic and the mechanical while combining the familiar with the uncommon into one cohesive design.

Earth is the third planet from the Sun and  
 the only astronomical object known to  
 harbor life. While large volumes of water  
 can be found throughout the Solar System,  
 only Earth sustains liquid surface water.  
 About 71% of Earth's surface is made up of  
 the ocean, dwarfing Earth's polar ice, lakes,  
 and rivers. The remaining 29% of Earth's  
 surface is land, consisting of continents
