When I designed the Faktum font I was lost on the shapes of Mid-century modern furniture. It was the juxtaposition of round and squarish elements that fascinated me. Faktum is exactly this – a child of contradictions, balancing the organic and the mechanical while combining the familiar with the uncommon into one cohesive design.

Earth is the third planet from the Sun.

22/25 pt

Earth is the third planet from the Sun and the only astronomical object known to harbor life.

12/15 pt

Earth is the third planet from the Sun and the only astronomical object known to harbor life. While large volumes of water can be found throughout the Solar System, only Earth sustains liquid surface water. About 71% of Earth's surface is made up of the ocean, dwarfing Earth's polar ice, lakes, and rivers. The remaining 29% of Earth's surface is land, consisting of continents

42/42 pt

Earth is the third planet from the Sun.

18/23 pt

Earth is the third planet from the Sun and the only astronomical object known to harbor life.

9/13 pt

Earth is the third planet from the Sun and the only astronomical object known to harbor life. While large volumes of water can be found throughout the Solar System, only Earth sustains liquid surface water. About 71% of Earth's surface is made up of the ocean, dwarfing Earth's polar ice, lakes, and rivers. The remaining 29% of Earth's surface is land, consisting of continents and islands. Earth's surface layer is formed of several slowly moving
